

Ashley Mann is a Data Scientist at Verizon, contributing to the AI & Data group where she focuses on competitive analytics. She joined Verizon in February 2023. Prior to her current role, Ashley was a member of the Network Capital Management Data Science team, where her work centered on capital optimization.

Ashley earned her B.S. in Data Science from American University in December 2022, and she recently completed her Master of Business and Science (MBS) in Analytics from Rutgers University in May 2025. As a mentor for Smart Campus, Ashley is eager to share her practical experience and academic insights aiming to guide and inspire future data professionals.
