PHOTOGRAPHY Front, Professor Aaron Mazzeo's paper-based sanitizer offers an array of potential microbe-killing uses. Above, Professor Shishir Chundawat is creating liquid fuel from sustainable biomass.

40+ *student organizations in engineering interest areas offer activities and leadership opportunities.*

RESEARCH & LEARNING

5

Nationally-recognized research centers in wireless technology, pharmaceutical engineering, energy storage, infrastructure, and materials.

Other areas of research include advanced manufacturing and computing, healthcare science, aeronautics, transportation, energy and biofuels, and bioengineering.

Many students conduct research alongside faculty starting from the first year.

Students also gain hands-on experience as interns at leading corporate and research organizations.
